DTF Cases

The Appalachian Drug Task Force released an annual report this past week to the Sheriff. According to the report the ADTF opened 43 cases and made 33 arrests in Towns County for the year 2007.

The Sheriff is scheduled to meet with the Appalachian Drug Task Force Commander this week. Among other issues the Sheriff will discuss how he plans to fight the drug trade in Towns County.

The Sheriff stated that he was very familiar with working drug cases and would make sure that Towns County cases were handled properly and that the citizens got what they were paying for. "I think the task force can work for us; I want to make sure that it does work," stated Sheriff Clinton.
